PROFILE

Detail-oriented and results-driven Angular Developer with 3 years of experience in designing, developing, and

deploying dynamic web applications. Proficient in front-end and back-end technologies including Angular,

HTML, CSS, SQL, PHP (Laravel), Vue.js, and Cassandra. Adept at collaborating with cross-functional teams,

optimizing performance, and delivering high-quality code under tight deadlines.

PROFESSIONAL EXPERIENCE

Angular developer, Itwine technology private limited
06/2022 - Present

Angular Developer with over three years of hands-on experience building and Bangalore, India

maintaining dynamic web applications, I bring a strong foundation in front-end technologies and a passion for clean, scalable code.

During my career, I've worked extensively with Angular, alongside HTML, CSS, and SQL, to build responsive and user-friendly interfaces. I also bring full-stack development experience using PHP (Laravel) and Vue.js, and have worked with Cassandra in handling large datasets efficiently. My diverse tech stack and ability to

adapt across frameworks allow me to tackle challenges with flexibility and confidence.

Developed and maintained scalable web applications using Angular and TypeScript. Integrated RESTful APIs and handled data manipulation using SQL and Cassandra. Collaborated with UI/UX designers to implement responsive designs using HTML, CSS, and SCSS.

Created reusable components and services to streamline development processes.

Contributed to backend features using PHP and Laravel, ensuring full-stack functionality.

Participated in Agile ceremonies, code reviews, and sprint planning for efficient delivery.

EDUCATION

BE in computer science, karavali institute of technology
2017 - 2021

Mangalore, India

SKILLS

Operating system

Linux, windows
Laravel, Node.js

PROJECTS

Horse Betting Application, Tech Stack: Angular, PHP, RESTful APIs, MySQL

Developed and integrated core modules (admin dashboard, user management, odds calculation, venue pool &

betting pools relation, and horse-jockey integration) for [betindiaraces.com], supporting 25+ racetracks.

Integrated Cashfree payment gateway and RESTful APIs to enhance overall functionality and user experience.

Implemented auto-deployment using Angular for efficient race tracking, betting management, and supported

over 1000+ users.

Online Learning Application

Led development for Vedic Maths and Upskill platforms using Angular, RxJS, and Lazy Loading.

Achieved a 30% improvement in page load speed and a 252% increase in website traffic.

Boosted site health score to 9% through SEO optimization and performance enhancements.

Upskill Hackathon Platform, Tech Stack: Angular, SCSS, Responsive Web Design

Designed and developed an Ionic cross-platform mobile and web app for hackathon participants.

Built the UI using Angular Material and SCSS, delivering a responsive and intuitive user experience.

KSIC Inventory & Sales Management System, Tech Stack: Vue.js, Laravel, MySQL

Developed a full-stack inventory and sales management system for Karnataka Silk Industries Corporation

(KSIC).

Implemented dynamic dashboards and user interfaces using Vue.js to track stock levels, sales performance,

and order processing in real-time.

Built robust backend modules in Laravel for product management, billing, and reporting.

Ensured secure role-based access control and efficient data handling for multi-branch operations.
